Celebrating One Year of Free Access

Dear Readers,

The January/February 2020 edition marks the first anniversary of the move to making the *FreeBSD Journal* a free publication. As you may remember, the Foundation made the decision to change the subscription model in order to help increase awareness and adoption of FreeBSD. Twelve months later, the benefit of making it freely accessible to everyone still outweighs the cost of producing it. The *FreeBSD Journal* is an excellent venue for keeping those interested in FreeBSD up-to-date.

In addition to making the *Journal* freely available, we also made the decision to remove it from the App stores. It allows us to have more control of the publication. While we removed the apps from the various storefronts last year, it has come to our attention that app subscribers may still be receiving subscription renewal notices via the app store. Unfortunately, these are out of our control. We ask that you please ignore any subscription renewal notices you may receive.

As always, thank you for your continued support of the *FreeBSD Journal*. Please consider making a [donation](#) to help us support this effort. Every little bit helps. We look forward to bringing you *FreeBSD Journal's* timely and informative articles in each issue and hope you'll share your favorites with colleagues and friends.

Anne Dickison
