LETTER

from the Foundation

Welcome to the 13.0 Release issue! Like you, we are excited to see the hard work from the last two years come together in a single release. Results from many Foundation-funded projects are evident in the latest release. They include help with the transition from SVN to Git, contracting with Moritz Systems to update LLDB in FreeBSD to fully replace GDB as a modern debugger, and funding improvements to Linuxulator including stabilizing the code base and making it easier to get started using it. The Foundation also funded work on ZFS compression and other OpenZFS improvements as well as wifi and graphics improvements.

Thank you to those whose donations permitted the Foundation to continue to support FreeBSD and especially to everyone whose tireless efforts helped make the 13.0 release such a resounding success.

We hope you'll enjoy this special issue of the FreeBSD Journal and that you will share it with your friends and colleagues!

On behalf of the FreeBSD Foundation,
Deb Goodkin
FreeBSD Foundation Executive Director
